

G3G Company Profile

Welcome To G3G

From our humble beginnings in 1999, G3G has grown into one of the larger SAP Business One Partners in Southern Africa. We currently support close to 1,000 local and international users across a broad spectrum of industries including Manufacturing, Mining, Retail, Wholesale & Distribution and Public Sector.

I've been a customer of G3G from 2008 and they have always been willing and able to provide great service.

Jacques de Lange, BCE Foodservice Equipment

The current management team have a combined SAP Business One consulting experience in excess of 50 years with the majority of the team being instrumental in the successful launch and establishment of SAP Business One in South Africa in 2004.

Drive your growth with the latest SAP innovations

What We Do

We design and deliver enterprise software solutions from across the SAP portfolio of products, and provide a comprehensive range of supporting services including SAP Software Sales, SAP Implementation and Development Services, SAP Application Support, SAP Infrastructure & Hosting, SAP HANA Cloud Platform and of course SAP Business One.

SAP Business One... It's our Game! As a complete integrated software application, SAP Business One eliminates the cost and hassle of integrating multiple stand-alone applications. Its intuitive interface and vast configurability minimize IT complexities. Integrating all core business functions across your entire company, it provides critical real-time data, enabling you to make better decisions, quicker, that will help grow your business.

SAP Business One Expertise:

- SAP Business One on HANA
- SAP Business One in the Cloud – we provide the full SaaS offering
- SAP Business One integration with SAP Business Suite
- SAP Business One for Manufacturing, Procurement and Retail back office
- SAP Business One SDK and Development – we have built a library of code exceeding 50 independent extensions optimising numerous SBO processes

Delivering Value

We are committed to delivering technology that works...and moreover, technology that works simply. We are passionate about helping make our customers lives easier by making the use of our solutions simple. We want to deliver solutions that are easy to use and simple to understand. We are thrilled at the opportunity of finding straight forward simple solutions to complex problems.

Optimise your SAP investment with the right support

G3G have been brilliant at providing solutions to our unique business processes in both Manufacturing and Administration and their after sales support and service is excellent.

Jared Buissinne, Jachris Hose and Couplings

Small Enough to Care

From implementation through on-going optimisation and support, we are committed to providing an unparalleled level of client satisfaction and business success. We consider ourselves to be a boutique consultancy that is small enough to care about every single customer, every single engagement, and every single support ticket. The culture of our business is one that encourages high touch engagements by people who really care, with many customers entrusting the support of their business to us ever since SAP Business One's introduction to the EMEA region in 2004.

You will go far to find such pleasant and helpful technicians as the group at G3G. Thank you for the quick and friendly support we receive from the team.

Antoinette Schulitschenko, Trust Engineering

Trusted Advisory

Even though we consider ourselves to be a boutique consultancy, our knowledgeable team of consultants support large and complex sites which include Pick n Pay Retailers, The Office of the Public Protector and other high profile companies across the Retail, Wholesale & Distribution, Public Entities and Mining Sectors. We are also small enough to care for and support smaller growing entities comprising of a hand full of users.

We look forward to working with you to provide innovative solutions that simply work.
